EXTENSION WORK GROWING IN SIZE

County Organization Allowed By New Bill

J. C. KENDALL DIRECTOR

Four New State Specialists Added to Staff. Object of Work to Improve Farm Conditions in State. Boys and Girls Clubs Important Field.

The Extension Conference held here December 7-11 brings to mind the Extension Service which the University is doing. Probably many of the students are not familiar with the scope of this work which has been growing steadily in size and importance since it began in 1911. The Extension Staff now comprises forty-one workers, of whom thirty-eight are county workers having their offices in the ten counties of the state; others are leaders and specialists who work out from the central office. The work began under the administration of Director J. C. Kendall in 1911 and has developed to its present status. Professor Kendall is also director of the Agricultural Experiment Station here.

The past year has seen an important expansion in the work. The passage of the special Extension Bill in the last legislature has now made it possible to organize all three lines of work—agriculture, home demonstration, junior extension—in each of the counties. Furthermore, it has been possible to put on four new state specialists. They are Mr. F. S. Prince, specialist in soils and crops; Mr. F. L. McGettigan, extension poultryman; Mr. H. A. Rollins, horticultural specialist; and Mr. E. D. Fletcher, extension forester. Both Mr. Rollins and Mr. McGettigan are recent graduates of the University. The object of the work is to improve farm conditions in the state, both on the farm and in the home. Something of the scope of the work can be realized when it is considered that more than one thousand leaders in the state are working in active cooperation with the extension staff in developing the program for better agriculture and improved rural life.

Among the important accomplishments which are largely due to the extension work is the development of a scientific poultry industry which has been previously handicapped by poorly constructed buildings and severe losses by disease. The accredited "chick" business alone which has been built up directly by the University now runs into hundreds of thousands of dollars each year. A second development is a greatly increased potato yield each year through the use of certified seed. Whereas previously the yield was only one hundred to one hundred twenty-five bushels per acre, it is now nearly one hundred eighty. In the fruit industry important gains have been made through the development of a spraying program, scientific pruning and better orchard management. In the interests of the dairy industry of the state, the Extension Service has rendered important aid through the development of cow test associations, campaigns for better sires, and through the figuring of more balanced rations.

Home demonstration agents have done a great deal to make life easier for the women of our country communities through such projects as cold pack canning, home-made dress forms, use of labor saving devices in the kitchen, explanation of more balanced menus, and many other projects relating to clothing, food, and health and home improvement.

Not the least important work has been in dealing with boys and girls. It has been estimated that more than twelve thousand young people in the

MIL. ART. HOP PROVES GAY EVENT OF YEAR

Over Two Hundred Couples Enjoy Season's Crowning Social Event—Fred H. Smith Wins First Prize in Manual of Arms

The largest social event of the fall term took place in the gym at the occasion of the annual R. O. T. C. Hop, December 12. This dance was positively the most brilliant social function so far this year. About two hundred couples were present. Ted Von's orchestra from Boston furnished the music. The decorations were very elaborate and of a military nature.

During intermission there was the usual prize drill in the manual of arms. Fred H. Smith, '29, won the first prize of \$10; J. H. Huckins, '28, took the second prize of \$5; and Arthur L. Somers, '29, won the third prize of \$2.50. Smith and Somers are both from Gloucester, Massachusetts. While there they were prominent in the Junior R. O. T. C. Unit.

The patrons and patronesses were President and Mrs. Hetzel, Major and Mrs. Walker, Captain and Mrs. Ayotte, Colonel Harry Steere and partner. Following are the members of the committees: Finance, S. King, '26, and E. Chase, '27; orders and invitations, B. V. Bryant, '26, and L. Ayers, '27; music, F. MacDonald, '26, and T. Pitts, '27; refreshments, R. Hatch, '26, and E. Philbrick, '27; decorations, E. Henderson, '26, and W. French, '27; entertainment, E. Blewett, '26, and C. Sleeper, '27; floor, C. Brown, '26, and T. Phelps, '27; clean-up, C. H. Currier, '26, and P. S. Johnson, '27; patrons and patronesses, E. B. Vatter, '26, and G. Pickwick, '27.

MEN'S GLEE CLUB GUESTS AT ELKS' VENISON SUPPER

A group from the Men's Glee Club were the guests of the Elks of Dover at a venison supper Thursday evening, Dec. 17. The following members made the trip: first tenors, J. Walls, '29, M. Wilnot, '27, H. Hawkins, '28, M. Avery, '28; second tenors, J. W. Day, '27, L. Sibley, '26, W. Ware, '26, F. P. Macdonald, '26; first basses, N. G. Reed, '28, P. Tracy, '26, C. Abbott, '25, B. Ericson, '29; second basses, W. Piper, '26, A. Petterson, '28, W. Lothrop, '29, R. Pinkham, '27. The following special quartet J. Walls, '29, first tenor; F. P. Macdonald, '26, second tenor; J. W. Day, '27, baritone; W. Piper, '26, second bass. J. Starrett, '26, will give saxophone solos and I. Stockwell, '25, will accompany the club.

FALL TERM PLAY ACHIEVES SUCCESS

Merchant of Venice Favorably Received by Students—Yields Large Financial Return to Dramatic Club

Mask and Dagger's presentation of "The Merchant of Venice" was an unqualified success according to the unanimous opinion of both faculty and student body. The acting and settings received favorable comment in all quarters and financially the results were more than satisfactory. The club cleared over one hundred dollars in spite of the unusually heavy cost of production.

Dr. Richards, head of the English department, stated when interviewed that the play was particularly noteworthy to him since the genuine appreciation shown by the student body marked the gradual breaking down of the unfortunate prejudice against the so-called "high-brow" type of entertainment.

Professor Hennessy, coach of the production, expressed his satisfaction with the spirit of cooperation shown by the entire campus as well as those directly connected with the play. He received a letter of appreciation and congratulation from Pres. Hetzel.

PRES. HETZEL TALKS ON MODERN YOUTH

Addresses Molly Stark Chapter of D. A. R. at Manchester—Expresses Faith in Science

President Ralph D. Hetzel was the speaker at the meeting of the Molly Stark Chapter, Daughters of the American Revolution in Manchester Monday afternoon and talked about the university and the development of education in general.

"You and I are shocked at the boy or girl who shoots by in an automobile at 35 or 40 miles an hour," he asserted, "but it is perfectly natural for them. They came into the world when it was moving at the rate of 40 miles an hour and they go along with it. They have not had the experience of the limitations of old Dobbin as we have."

"We attach a moral significance to things which are merely mechanical and youth rebels at our unfairness." "Two of the things which I have faith in are those which are most under fire. One of these is youth and another is science. Science in 25 years has ministered to the well-being of man and glorified the works of God, if it is rightly understood, and will continue to do so. Science is looking for truth, that is all, and so training in science is not to be feared. I have faith too in the new spirit, the new consciousness and understanding which must come. We have got to have a moral balance, and I believe it is coming."

President Hetzel then reviewed the history of the University and closed by speaking of the contributions made morally and socially to the development of the state by the institution.

KAPPA SIGMA FRATERNITY ENTERTAINS WOMAN'S CLUB

The Durham Woman's Club was the guest of the Kappa Sigma fraternity at a bridge party and entertainment held at the latter's house on the evening of Dec. 14. Seventeen tables were filled in the living room and entrance hall of the house.

Orchestral selections were rendered by Jasper Starrett, '28, Ira Stockwell, '26, and Melville Von Rosenvinge, '27. Lyle Farrell, '29, a baritone, favored with "At Dawning" and "Duna." Refreshments were served during the evening by members of the fraternity.

CO-EDUCATION IS SUBJECT OF DEBATE

First Women's Varsity Team Meets Radcliffe on Wednesday in Durham at Community House

Radcliffe will attack co-education and New Hampshire will defend it in a single contest debate at the Community House January 14. between the varsity team of the famous Cambridge women's college and the newly organized women's varsity team of the University of New Hampshire.

The debate marks the first occasion when Radcliffe has gone outside its triangular league for competition and the first time that a woman's team has ever represented New Hampshire in debate. A modified Oxford system will be used and the judging will be done by a single expert and by vote of the audience.

It is expected that an unusually large audience will be present at this first appearance of a University women's team both because of the popular interest in the subject and because of the excellence of the visiting team.

The members of the Radcliffe team are: Nina Ridenour, '26; Frances L. Cooper-Marshall, '28; Margaret J. MacGregor, '28, and Catherine Beatrice, '28, alternate.

The New Hampshire representatives are: Gladys A. Harris; H. Gwendolyn Jones, Evelyn Davis, and Carolyn Woods, alternate.

Season tickets are on sale for a dollar each at the Bookstore and the drug stores. This is at less than half the regular price, single admissions being 25 cents.

ICE HOCKEY CLASSES TO FECTURE WOMEN'S SPORTS

There is a great variety of sports offered by the Physical Education department for women students of the University. In addition to the usual classes in basketball, snowshoeing, skiing, and games, there will be two classes of ice hockey instructed by Miss Andrews. Mr. Larson will take charge of the skiing and snowshoeing department.

JUNIOR NOTICE

There are a few Juniors who have failed to pay their six dollar deposits and these are expected to pay immediately in order to insure their picture and write-up in the Granite.

W. H. COWELL
First Vice-President, American Football Coaches' Association

COWELL HONORED BY ASSOCIATION

Named First Vice-President At Meeting of Coaches

DOBIE IS PRESIDENT

Professional Football Rejected by High Moguls of the Game—Favor Shorter Practice Periods—to Refrain from Selecting "All" Teams

W. H. Cowell, Athletic Director of the University of New Hampshire, was elected First Vice-President of the American Football Coaches' Association at the annual meeting held during the recent college vacation in New York city. This honor was not wholly unexpected as Mr. Cowell has been active on the Track and Field Rules Committee of the association and served as third vice-president during the past year.

The American Football Coaches' Association has rapidly made a name for itself in its five years of existence and has become the governing factor on football rules for all colleges of the country. Over 175 of the leading coaches of the country are members of this organization. Such men as Hugo Bezdek, Robert Zupke, Gilmour Dobie, Major Griffith, Charles Meehan, and Major Cavanaugh are actively interested in promoting this association and the sport which holds the interest of the entire country. Robert Zupke presided over this annual meeting giving way to Gilmour Dobie, of Cornell University, who was named president for the coming year.

Perhaps the most important topic of the meeting was on Professional Football. This form of football was stultified by the action of the coaches whose sentiment was unanimously against the promotion of "Pro" football, the association adopted the following: "After Sept. 1, 1926, no man who is engaged in professional football in any capacity may be eligible for membership in the coaches' association." The association went on record as being in favor of shorter practice periods; opposed to the over-emphasis of the game; favored delaying the start of practice until Sept. 15th; and suggested that the present code of rules remain intact.

The nominating committee went on record as being in favor of the succession of presidents and that means that "Bill" Cowell will succeed "Gil" Dobie next year as the president of the organization. Other elections were: second vice-president, William Roper of Princeton; secretary-treasurer, Dr. John Wilce of Ohio State; trustees, Hugo Bezdek of Penn State, Fielding Yost of Michigan, W. H. Alexander of Georgia Tech, and Benny Owen of Oklahoma.

NEW CLUB COMPOSED OF SUB-MANAGERS ORGANIZED

A newcomer in campus organizations is the Managers' Club, which was formed recently. The club is composed of freshman and sophomore sub-managers as active members, and varsity managers as honorary members.

The purpose of the club is to promote a better understanding between the managers and the coaches, and to help solve some of the rising managerial difficulties. The club will also aim to create better cooperation among the sub-managers, thus increasing their individual work.

The officers of the club are Frederick Mitchell, president; Paul Hunt, vice president; and William Colby, secretary-treasurer.

Any student who desires a 1927 Granite and who fails to be approached by a sorority member may secure a copy by calling either Hopkins or Johnson at the Theta Chi House, Tel. 112-4, until next Monday, January 11.

NEW HAMPSHIRE AND WISCONSIN TIE AT LAKE PLACID WINTER CARNIVAL

Annual Winter Carnival Draws Record Crowd to Witness Greatest Gathering of Winter Sports Competitors Ever to Assemble at One Time in the United States—Michelson Leads Team in Excellent Work—Places Second in Skiing Proficiency and Third in Jump—Peaslee Captures Cross-Country Snow Shoe Race

Before the largest crowd ever assembled to witness a winter sports program at Lake Placid last week, Varsity Winter Sports team tied with the University of Wisconsin, each team scoring 18 points. There were 78 competitors from sixteen colleges in the United States and Canada, the largest gathering of winter sports competitors ever to assemble in the country. Fred Peaslee, '26, was the big winner of the week. In the cross country snow-shoe race, he led a large field from the beginning and crossed the tape first with Ralph Littlefield, '27, coming in third. This is the second year that Peaslee has raced on snowshoes. He won all the races that he entered last year.

The leadership of Gunnar Michelson, captain of the team, was the greatest individual reason for New Hampshire's success. Michelson took second place in the proficiency ski work and third in a very closely rendered decision in the jump. The Granite State captain's jump was longer than that of the winner of the event and on form he was only .09 of a point behind the second man in the opinion of the two judges. Had he been awarded this place New Hampshire would have won the meet.

Albert Van Allen, '27, finished second to the famous Crofts of Williams in the 100-yard snow shoe dash, while Tetley, a freshman took third in speed skating. Eddie Bruce, '27, New Hampshire's hope in the cross-country ski race failed to finish owing to a broken ski rigging.

The splendid work of the team becomes apparent when the names and points of the defeated contestants, all institutions famous for their proficiency in this branch of sports, is taken into consideration. Dartmouth tied McGill for third place with nine points each while Williams, long noted for its winter sports teams, took only six. The Canadian universities of Ottawa and Toronto scored only three points each as did Maine and Syracuse. The other entrants placed in only one or two events.

INTRA-MURAL SPORTS TO FOSTER HOCKEY

Plans Made for Formation of League Inter-Frat Relay Teams to Compete in Meets

At the regular term meeting of the Intra-Mural Athletic Association of the University the subject of interfraternity hockey and interfraternity relay was discussed. Plans are now going forward in view of forming a hockey league which will begin within a few weeks. Interfraternity relay will also be fostered during the latter part of this term.

It was brought to the attention of the association that the main purpose of building the skating rink was not primarily for varsity use but for the use of the students and the fraternities. With this purpose in mind the association is fostering this attractive winter sport with the hopes that future college stars will be uncovered in the interfraternity competition.

Perhaps the most successful of varsity sports in the past few years has been basketball. One of the reasons for the success of this sport has been the developing of basketball players in the leagues which are carried on through the fall term of each year. It is hoped that other varsity sports may receive an equal benefit by participation in these games.

RELAY TEAM HOLDS INITIAL WORKOUT

Field Event-Men May Accompany Team. Spring Tracksters to Practice This Term

About ten Varsity Relay candidates reported to Coach Paul Sweet for practice Monday afternoon. It is too early to make any predictions as to the regular lineup but the competition promises to be exceptionally keen. Thus far Coach Sweet has been working on "form" with a light workout for conditioning purposes.

The following were noted at the first practice, Reggie Atkins, Charley Gray, Art Lamont, Albert VanAllen, James Kilkelly, Dick Daland, Larry Barclay, Charles Sleeper, Dana Lee, Bill Stewart.

Coach Sweet plans to carry a few fieldmen along with the relay team. Paul Toolin is out for the hurdles, Jack Smith, the high jump, and the weight events will be taken care of by Furio Abbiatti, Speed Hartwell, Bill Hoagland and Les Hubbard.

In preparation for Spring Track, Coach Sweet plans to have all the candidates for the weight events, dashes and distance men, high jumper sand pole vaulters, who are not participating in other branches of sports working out daily this term. Arrangements have not wholly materialized but will be announced in the near future.

FIRST INFORMAL OF NEW YEAR ON SATURDAY NIGHT

The first informal of the New Year will take place at the Men's Gym Saturday night, January 9, 1926. The music will be furnished by a popular campus orchestra, and spirit and more "pep" is looked forward to and a large gathering is expected.

A. T. O. HOLDS ANNUAL CHRISTMAS HOUSE DANCE

The annual Christmas House dance was held at the Alpha Tau Omega fraternity house Friday evening, Dec. 18. The house was daintily decorated with evergreen. A Christmas tree added to the evening's festivities. Music was provided by the Portsmouth Syncopaters.

Mr. and Mrs. Henry C. Swazey and Mr. and Mrs. J. O. Wellman were the chaperones.

Among the guests present were: Miss Anna Hunt, '27, Miss Helen Card, '28, Miss Mary La Salle, '29, Miss Frances Harris, '29, Miss Ruth Finn, '26, Miss Arline Bessey, Rochester; Miss Dorothy Flynn, '27, Miss Eleanor Littlefield, '29, Miss Marion Hatch, Dover; Miss Mae Trinity, Manchester; Miss Delores DeCoursey, Miami, Fla.; Miss Celia Campbell, '29, Miss Elinor Conant, '26, Miss Charlotte Pearl, '29, Miss Marguerite Cournoyer, '29, Miss Julia Taylor, '29, Miss Mary Haselton, '29, Miss Pauline Kelly, '28, Miss Evelyn Boomer, '29, Miss Ruth Wright, '28, Miss Mary Dahlberg, '29, Miss Margaret Woodman, '27, Miss Ruth Warren, '28, Miss Grace Hanson, Dover; Miss Muriel Swasey, '28, Miss Evelyn Wheeler, '28, Miss Lillian Hudon, '26, Miss Pauline Burleigh, Tilton; Miss Arne Martin, '27, Miss Mary Maker, Exeter; Miss Doris Collishaw, Exeter.

OUR MASCOT

Last year the varsity athletic teams were labelled the "Bulls." At that time in the bustle and excitement, this animal was generally accepted as the mascot. This year there has been a radical change in the sentiment of the student body and the alumni. Many have awakened to the fact that a bull suggests too much an agricultural college. Those who have expressed their opinions on the subject have aroused much discussion. As usual this discussion has been limited to the various fraternity houses and dormitories and has not been open to the student body

as a whole. The New Hampshire asks that this form of expression be stirred up even more than it now is but it asks one thing more. In order that the entire student body may become acquainted with the ideas of individuals, either alumni or students, it is requested that opinions be sent in for publication, in order that all may know the sentiment of the rest of the individuals who may be either directly or indirectly connected with the University.

It is a matter of the utmost importance. Will the bull be retained as symbolical of this University or will some other mascot be adopted? Perhaps some are of the opinion that there is not too much of an agricultural idea expressed. We want to hear from them. Others are decidedly against the present mascot. We want to hear from them also.

The New Hampshire, to start the ball rolling, takes the liberty to suggest a few mascots: Wolves, Wolverines, Huskies. These are not used by any of the Eastern colleges and perhaps might appeal to the students and alumni. Huskies in particular might appeal to a few who wish to have the favorite animal of Winter Carnivals emphasized. A husky is a hardy animal and is more generally known in this state than in any other. These suggestions are merely for the purpose of helping to start a list from which the students may choose.

If you have an idea for a new mascot let the students know, or if you want to retain the present mascot let them know. It is a matter in which every one may offer an opinion. Have you one?

UNIVERSITY OR STATE COLLEGE?

A recent letter from one of our alumni brings again to mind an error that is more or less prevalent despite efforts to correct it. We refer to the habit of the press outside of the state to label the University in such fashion as New Hampshire State College.

This happens periodically and in some cases continually. We, on our part, have and continue to let it be known that we are now the University of New Hampshire and that New Hampshire State College is a thing of the past. We are proud of our advance and shout it to the high heavens, but is a difficult matter to dislodge accepted terms and in some quarters we are denied the title which is our right.

Here is a place where you can render us valuable assistance. Why not make it a point whenever you see the name of the University misstated to

drop a line to whatever publication makes the error. The editor of the publication will be glad to make the correction because it is a matter of sound news policy to prevent such errors. You can be assured that any action you take will receive prompt attention and will be gratefully received.

It may seem a simple thing to you, but we are known by the publicity we get. Your pride in your alma mater should inspire you to take action now that the matter has been called to your attention. You will be doing the University a service. Need we say more?

FROM OUR MAIL BAG

To the Editor:

I have been very much interested in the discussions appearing in "The New Hampshire" concerning the cognomen of "Bulls," referring to our teams. With all due respect to those learned gentlemen contributing these discussions, I should like to advance my opinion.

One writer states that if our men are "bulls," our "co-eds" must be "cows." By a similar line of logic the "co-eds" at Brown are "lady bears," and those at Tufts "lady elephants." Why go any farther with the analogy? The statement is so absurd on the face of it that it can deserve no attention.

Another gentleman brings to our attention the fact that bulls are barnyard beasts, and that by using the term "Durham Bulls" we designate our institution as an agricultural college. Brown, Tufts and Princeton, therefore, train men for the circus! Have we at last found the origin of the statement that Kelley Pool is a swimming tank?

Why is there such opposition to the name given to our teams? I can see no stigma attached to the name "Bulls." The charging bull is a personification of power and ferocity, of strength and determination. If we show this power, ferocity, and determination in our athletic contests, why not use the name for our teams? '27.

Editor of the New Hampshire:—

Dear Sir:—

The question has been asked at various times, "Why does the University so lack in opportunity for culture and refinement?"

The faculty and executive heads have been more or less indicted as being responsible for the organization of an educational system that fails to provide such opportunity.

Tonight I realize why the lack exists and accept as inevitable the course enforced upon the powers that

be. "Cast not thy pearls before swine lest they turn and rend you." At the opening performance of THE MERCHANT OF VENICE by "Mask and Dagger" certain elements in the student audience gave evidence of the conditions that force the policy now in vogue to be adopted, a policy that prevents this institution from being a true university.

This indictment would not be so severe if I could say that the whisperings, the simple and moron-like noises and calls, the total disregard for the audience and players was excusable on the grounds of young and inexperienced children. Such an excuse can not be offered. It was mere uncouthness, inability to appreciate, lack of breeding, and common rowdiness. I recall a performance in a foreign country, attended by seamen, lumbermen, and women of the streets—their reception of the performance approached and accorded the players during the fourth act of THE MERCHANT OF VENICE.

I uphold the stand of those who refuse to nail Art and worthy ambition to the cross of rowdiness.

Yours truly,
 R. H. W., '27.

A CHALLENGE ANSWERED

(With apologies to Kipling only)
 Worms of the campus, known of old,
 Sheiks with the same old time-worn line,
 Beneath your hand you think you hold
 The power to make the co-eds pine.

Poor campus trash, do not forget
 The stage is set. We'll get you yet.

All romance with its glamour dies.
 The nincompoop will soon depart,
 His time, a hopeless sacrifice.
 The co-ed mocks with unscathed heart.

Thou quibbling fool, remember yet:
 'Tis like a blank—the day we met.

He thinks of you when he's away
 He tells you with an ardent fire.
 Lo! all his blah of yesterday
 Is gone, like Nineveh and Tyre!
 Lords of creation, since we've met,
 Your hymn we've read. We can't forget.

No more the co-ed ventures trust
 In sugared word and cupid shard.
 Oh, weakling fop that's less than dust,
 Your fickle heart you need to guard!
 In spite of all the mud we've slung,
 Rejoice, young swains, you're not unsung.

D. H. and R. P.

FRANKLIN THEATRE DURHAM, N. H.

ADMISSION: ADULTS 25c CHILDREN 10c

THURSDAY, JANUARY 7

"TIME, THE COMEDIAN"

A Metro Picture

Lew Cody and Mae Busch

The story of the horrid spectre of a youthful tragedy looming up at middle age. The story of an operatic star whose daughter is in love with the man who compromised her.

Gertrude Olmstead, Theodore Kosloff, Paulette Duval
 International News

FRIDAY, JANUARY 8

A Paramount Picture

"KING ON MAIN STREET"

Adolphe Menjou

The story of a King who must be King in spite of the one honest love in his life. Menjou takes the part of the King who comes to America to float a loan. Here he mixes with the "rabble" which he likes and falls in love with an American flapper. An excellent comedy. Menjou is supported by Besie Love, Greta Nissen and Joseph Kilgour.

Educational Comedy—"TOPSY-TURVY"

SATURDAY, JANUARY 9

A Paramount Picture

"LORD JIM"

Featuring Percy Marmont

The film is a true picturization of Joseph Conrad's book by the same name—true even to the tragic ending. The story of a seaman who is hypnotized into deserting a sinking ship. The stigma of a coward is placed on him and it takes him years to live it down. The story's locale is Malay. Marmont is ably supported by Shirley Mason, Noah Beery, Raymond Hatton and Joseph Dowling.

Pathe Comedy—"MEET THE MISSUS"

MONDAY, JANUARY 11

A Paramount Picture

"COBRA"

Starring Rudolph Valentino

This picture gives Valentino abundant opportunity to make love to fascinating women in his own inimitable way. He is an Italian aristocrat, who in need of money, comes to America to accept a position in an art shop. He has had many loves but his one true love is his friend's wife. Supported by Nita Naldi, Gertrude Olmstead, Claire de Lorez, Eileen Percy, Lillian Langdon.

Short Subject—"TOPSY-TURVY TRAVEL"

TUESDAY, JANUARY 12

A Warner Bros. Production

"SATAN IN SABLES"

A melodrama of high and low life in Paris, with an Apache heroine and a Russian Prince for a hero. A story of suspense, thrills and magnificent settings. Lowell Sherman, John Harron, Pauline Garon, Gertrude Astor.

International News

Comedy—"ABSENT MINDED"

WEDNESDAY, JANUARY 13

A Paramount Picture

"WOMAN OF THE WORLD"

Pola Negri

Although you see Pola in Paris, London, and New York, and although she is a "woman of the world," this picture has its setting against a typical small town background. This is the first time in her career that Pola is in an American romance. It is a delightful mixture of emotional thrill, spirited drama and rollicking humor.

Comedy—"THE ROUGH PARTY"

SHOWS AT 3.15, 7 AND 8.45

When the runners are
 bunched on the track—and
 suddenly Chuck, your own
 superman half-miler, spurts
 ahead on the finish and wins
 —have a Camel!

WHEN the lithe half-milers are fighting for the lead. And your own dauntless champion suddenly soars ahead and wins—have a Camel!

For you'll never find another friend so attuned to your triumphs as Camel. Camels are made of the choicest tobaccos grown—they never disappoint your taste. Camels annihilated cigarette after-taste. Regardless of price, you'll never buy better tobaccos, or blending, or flavor than you get in Camels.

So this year when the old school's men go through for victory after victory—taste then the smoke that's choice of the world's victorious.

Have a Camel!

Into the making of this one cigarette goes all of the ability of the world's largest organization of expert tobacco men. Nothing is too good for Camels. The choicest Turkish and domestic tobaccos. The most skillful blending. The most scientific package. No other cigarette made is like Camels. No better cigarette can be made. Camels are the overwhelming choice of experienced smokers.

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.
 R. J. Reynolds Tobacco Company

Where motorized power is virtually unknown, men toil yet accomplish little. The United States has over one-quarter electrical horsepower installed per capita. Japan, leading country of the Orient, has but .04 horsepower. Electric shovel and storage battery locomotive are shown at a completely electrified open-pit coal mine, at Colstrip, Montana.

Work without Toil

Ten or twelve hours a day toils the coolie. If he carries all he can, he moves one ton one mile in one day. For that he receives twenty cents.

Cheap labor! Yet compared with our American worker, receiving at least twenty-five times as much for an eight-hour day, the coolie is expensive labor. In America we move one ton one mile for less than one cent. The coolie, working by hand, accomplishes little; while the American, with electricity's aid, accomplishes much.

Plenty of electricity and cheap electricity—these are two great advantages which America enjoys over the rest of the world. While our present generating capacity is 20,600,000 kilowatts, new developments call for 3,000,000 kilowatts more per year.

To college men and women—potential leaders—will fall the duty of finding more and still more work for electricity, with less and still less toil for our workers. For the task is but begun!

KAPPA SIGMA WINS CHAMPIONSHIP IN INTRAMURAL LEAGUE

Vast Crowd Witnesses Kappa's Triumph Over A. T. O. by a Single Point—Slayton Outstanding Star of Game

Kappa Sigma won the championship in the Intra-Mural Basketball League Thursday, Dec. 10, by defeating the Alpha Tau Omega quintet by a single point. The two "runners-up" clashed in this spectacular contest for the final honors, and it was the closest and most exciting game of the league.

The contest was close and although Kappa Sigma held the lead throughout the game at no time did its team lead by more than three points.

The first period was very fast, but comparatively little scoring was done. It ended with Kappa Sigma five and their opponents three. In like manner the second quarter proved very interesting, and A. T. O. launched an attack which brought forth cries of approval from all sections of the crowded Gym. The fast Kappa "club" managed to keep 2 points ahead of their opponents, and the half ended 11 to 9. In the third period, both "clubs" made a spurt, and A. T. O. managed to gain one more point nearer to victory, and the period closed with Kappa Sigma 20, and A. T. O. 19. The final period was naturally the closest and most spectacular. The hardest playing and least scoring was the main feature of this period, which ended with Kappa Sigma victorious by a single point.

Fouls were frequent throughout the contest; so much so, that four players, Schurman, Jack, Beattie, and Burke were ruled from the game. Alpha Tau Omega had 30 shots from fouls, but was successful only in 9. Had more advantage been taken of these opportunities, it might have resulted in a win for the A. T. O's.

Slayton, as usual, played his usual good game, while Lord, Schurman, and Manfreda were the high scorers. Smith made five points from fouls.

Summary:
Kappa Sigma 24 23 Alpha Tau Omega
Jack, rf, Lord
Lucinski, lf, Lord
Beattie, lf, Smith
Manfreda, lf, Smith
Burke, c, Schurman
Slayton, rg, Chandler
O'Leary, lg, Neal
Baskets by Lord 3, Schurman 3, Smith 2, Jack, Manfreda 3, Burke 2, Slayton 2, O'Leary. Free throws from fouls: Smith 5, Lord, Schurman 2, Jack, Burke, Slayton 2, O'Leary 2. Referee: George Hoyt. Scorer: J. Carpenter. Timer: Hunt.

"GRANITE CHIPS"

The 1927 Granite campaign is in full swing and many orders for the year book have been placed. The Granite board calls attention to the fact that only those whose orders are received with a three-dollar deposit before next Monday, January 11, will secure a copy of the "Best Junior Granite."

The 1927 Granite has among its many features a flexible leather cover that will add greatly to its attraction. It will be a Mem-Book that every student will enjoy and should possess. The sororities are in keen competition and students should subscribe through sorority members.

Remember the 1927 Granite is an annual for all the students. It is a compact, concise, and complete book of the University of New Hampshire for 1925 and 1926.

HAROLD COTTON
Captain of Varsity Basketball

BASKETBALL BEGINS WITH HARD WORKOUT

Short Passing Game Favored—Will Speed Up Teamwork—Intensive Training for Candidates—27 Men Report Daily

With twenty-seven men reporting daily the basketball squad has started earnest training for the coming season. Preliminary practices were held by "Lang" Fernald and Coach Cowell has taken charge of the intensive workouts. Six letter men form the nucleus about which he will build the team. Several last year's freshman stars will undoubtedly work into the line-up before the season is well under way.

Three regulars are available for the opening game with Maine on the 15th. These include Harold Cotton, this year's captain and forward, Wendell Davis, and Robert Nicora, guards. Cotton is one of the fastest men on the local floor in recent years. Other letter men are Taylor, Craig, and Kelsea.

Coach Cowell places emphasis on short passes and teamwork, eliminating the dribble and individual playing. These changes will speed up the game and will work towards more victories. Although last year's team lost only three games, the season should see that record overcome. The present squad will be retained throughout the season with no cut being made by Coach Cowell unless the size interferes with the development of the first team.

GRANITE NOTICE

The Granite Board announces the sale of group pictures and campus scenes beginning next week.

N. H. U. TO HEAR FAMOUS LECTURER AT NEXT CONVO

Mr. Norman Angell, noted English lecturer, will speak at Convocation next Wednesday. Mr. Angell was considered a radical years ago when he foretold the World War. But the fulfillment of his prophecy stamped him a great man. His most noted book is *The Great Illusion*.

Mr. Angell is now on a three months' lecture tour in the United States. He will speak at Dartmouth on Tuesday, here Wednesday, and at Williams College on Thursday. His subject will probably be "The Great Illusions" of Current Political Thought. Immediately after Convocation there will be an informal reception given to him by the faculty in Smith Hall.

LIBRARY NOTICE

The "Library Lantern" may be obtained by students at the desk in the library. This is a library publication giving information as to the best sellers, the latest additions to the library, and incidental material about authors. It is published once a month.

Lab Lightning

Douglas F. Miner

same comment. And Douglas F. Miner, himself, agrees that he did—and does. That makes it unanimous.

"Big league lab work" was his aim as he turned to Westinghouse after graduation in 1917. But not until his return from overseas service two years later could he settle down to the lab. Now—at thirty-three—he's in charge of experiments at our Engineering, High Power, and High Voltage Laboratories, with a staff of twenty-five to direct.

He can unleash artificial lightning of 5,000,000 horsepower in 5/1000 of a

second. At his bidding the world's largest single-unit transformer will step current up to a million and a quarter volts.

He has demonstrated the greatest artificial arc on record—fifty-five feet in length. To further his experiments a single generating plant, capable of producing on short circuit a million horsepower, has been erected.

There is a practical reason for these super-tests—for this equipment in advance of what the world uses now in its daily work. This, for instance, is frequently the attitude of a Central Station customer: "Of course your apparatus meets our needs today—takes every test to which we can put it now. But what of 1950? Will this insulation stand the load we will

The question is sometimes asked: Where do young men get when they enter a large industrial organization? Have they opportunity to exercise creative talents, or are they forced into narrow grooves?

This series of advertisements throws light on these questions. Each advertisement takes up the record of a college man who came with the Westinghouse Company within the past ten years, after graduation.

use then? And how many volts will these arresters bear?"

They come to Miner for the answer. He gets it from the laboratories. He produces under a roof the same conditions which nature, or time, may be holding in store for Westinghouse equipment.

Such is the pioneering of Westinghouse Laboratory Engineers. They are "experimenting in the tomorrow"—the step between research and application. They are finding growth, reward, congenial work, while following a bent for trying things out.

LIBRARY NOTES

About a year ago Hugh Walpole's "The Old Ladies" was being read everywhere. Just now there is a new Walpole novel which, it seems, ought to be even more popular. Hugh Walpole does not usually write detective stories, but this is one. One critic says of it: "It is a thrilling romance, very beautifully told." Another critic says: "It is amusing to guess at the steps which led Mr. Walpole from 'The Old Ladies' to the 'Portrait of a Man with Red Hair' (for this is the name of the new book)." Perhaps he could not get out of his head the memory of mad old Agatha, casting into her lust for a piece of red amber the angry desolation of a starved life. In the "Portrait of a Man with Red Hair," there is madness again, and amber, but with what a difference! No ungainly sloven, but a villain in evening dress. Here the good triumph and the evil perish, the weak are protected by the strong, the brave deserve and win the fair.

People who like Swinnerton have thought "Nocturne" to be his best work. Now there is published a new book by him "The Elder Sister," which is on a level with "Nocturne." This is the story of two sisters who drift from friendship into love for the same man.

A new novel by Booth Tarkington is bound to be popular. His latest book is called quite simply "Women." It is not one long story, nor yet a collection of short stories, but a collection of episodes in the lives of a little group of women in a well-to-do suburb. It is built chiefly around two middle-aged women and the love affairs of their daughters. One of the most amusing bits is the description of the violent "crush" of a young lady of sixteen on a middle-aged professor. The whole book is very entertaining.

Another book about women is "Wives" by Gamaliel Bradford. One critic says: "These seven women are chosen because they are remarkable in that they managed to be distinguished in a secondary role, to play second fiddle with an individual note. The seven are: Mary Todd Lincoln, Theodosia Burr, Sarah Butler, Dolly Madison, Mrs. Blaine, Mrs. Jefferson Davis and Mrs. Benedict Arnold."

One of the new books being generally discussed is "The Emigrants," by Johan Bojer. In this story, Bojer writes about a group of Norwegian immigrants who come to this country and establish a community. It is most interesting for the contrast of two modes of living: the old world and the new.

For those who like a thrilling historical novel there is a new one which seems to be particularly good. This is "The Power and the Glory" by Gilbert Parker. It is romance of the great La Salle. This gives a brilliant picture of the intrigue of the French court and also of the dangers and adventures met with by La Salle in exploring this country.

Anne Bosworth Greene, the author of "The Lone Winter," has written a new book called "Dipper Hill." It is written with the same charm and has the same love of outdoor and natural things. She and her daughter have a pony in Vermont and spend their days doing as little house work as possible, riding over the country, working in the garden or caring for their thirty ponies.

DEAN CASE SPEAKS AT N. H. GOOD ROADS MEETING

Dean Case attended the meeting of the New Hampshire Good Roads Association in Manchester on Wednesday and Thursday, December 9 and 10. At a luncheon, Thursday, he spoke on the part the University is prepared to take in the program for new roads for the State.

The toastmaster for the luncheon was the Honorable George E. Wood, Speaker of the House of Representatives, who in introducing Dean Case spoke very highly of the work the University is doing, both in the class room and in the advancement of the interests of the State of New Hampshire by its extension work.

PVT. PITTS FOUND GUILTY BY JUNIORS

Neville and Sleeper Excel in Trial Court Martial Held by Advanced R. O. T. C. Students

The practice court martial of Private Thomas Pitts, held by the junior students of the advanced R. O. T. C. course on the evening of Monday, Dec. 14, was an unqualified success according to all authorities except the defendant. The latter was acquitted of desertion and sundry minor charges but was found guilty of being A. W. O. L. and sentenced to six months at hard labor and loss of pay for the same period of time.

Capt. John Neville, in the role of trial judge advocate, and Capt. Cleveland Sleeper as defense counsel, did some excellent work and introduced both humor and pathos into their numerous pleas and objections which were usually overruled by the court with commendable impartiality. Capts. Pettee and Ayotte acted as their assistants respectively.

After the verdict refreshments of cider and doughnuts were served to court and prisoners and the tribunal adjourned.

The senior students of the course will hold another trial at the end of the present term and members of the junior section will be invited.

HOCKEY SEASON TO BEGIN ON SATURDAY

Possibility of Opening the New Providence Arena—Club Handicapped By the Loss of Proudman

The hockey team received a severe blow to its hopes when it was announced Monday that Bill Proudman, forward, will not attend the university this term. Proudman, a member of the Theta Upsilon Omega fraternity, was one of the three letter men left from last year's team. His loss leaves Capt. Fudge, defense man, and "Duke" Blewitt, goal, as the only letter men available.

In spite of the lack of veterans available Coach Christensen is very favorably impressed with the early season practice and hopes for satisfactory results in the difficult schedule arranged. An interesting feature of this schedule is the fact that the team will probably meet one of the Greater Boston aggregations such as Boston College or M. I. T. in the dedication of the new Providence arena on Feb. 12. The first game will take place Saturday at Durham with either Colby college or the Exeter town team visiting.

The schedule:
Jan. 9 Colby or Exeter T. T. at Durham.
Jan. 20 Bates at Durham.
Jan. 22 Mass. Aggie at Durham.
Jan. 28 St. Jean's at Waterville.
Jan. 29 St. Dominique's at Lewiston.
Jan. 30 Bates at Lewiston.
Feb. 6 M. I. T. or B. U. at Durham.
Feb. 12 Pending.
Feb. 13 Mass. Aggie at Amherst.
Boston Arena game also pending.

INSTALL NEW PRESIDENT AT POLYTECH INSTITUTE

An event of interest to engineers and chemists will take place on the evening of January 13, 1926, in the Opera House of the Academy of Music, Brooklyn, New York, when Dr. Parke Rexford Kolbe will be installed as the new President of the Polytechnic Institute.

Dr. Charles Alexander Richmond, President of Union College, will give the principal address of the evening. The presentation of the charter, seal and keys will be made by Charles E. Potts of the class of 1892 and now Chairman of the Board of Trustees of the Polytechnic Institute. President Kolbe will follow with his inaugural address.

Official delegates representing the colleges, universities and societies have been invited to attend and acceptances indicate a note-worthy gathering of prominent men from all parts of the country. A reception for the official delegates will be held at the conclusion of the academic exercises.

The inaugural exercises are in charge of a general committee consisting of M. S. Sloan, President of the Brooklyn Edison Company, chairman; James S. Davis, Ernest P. Goodrich and Joseph P. Carlin, acting with a committee of the college faculty headed by Professor William J. Berry.

EXTENSION WORK GROWING IN SIZE (Continued from Page 1)

state have been taught improved practices and given a more hopeful outlook toward country life through the boys and girls club agents. Gardening, clothing, canning, poultry, potatoes, dairying, forestry, are some of the more important projects. Each summer hundreds of boys and girls club members come to the university to attend the State Club Camp which is held in connection with the Annual Farmers' and Homemakers' Week. Many students now in the university owe their first introduction to the campus and their interest in coming to college to contacts made through this phase of the extension work.

TWO FRATERNITIES HOLD JOINT CHRISTMAS PARTY

A joint Christmas party of the Kappa Sigma and the Lambda Chi Alpha fraternities was held in the home of the latter on Saturday, December nineteenth. "Duke" Blewitt acted as Santa Claus and everyone present received a gift from the heavily laden tree. Many of the alumnae of both fraternities were the guests of the evening and friendships were renewed and strengthened as the men played at bridge or were grouped about the piano singing songs. Refreshments were served during the evening, the party being brought to a close with the singing of Alma Mater.

J. C. KENDALL SPEAKS AT FORESTRY CONFERENCE

New Hampshire's forestry extension work aroused considerable interest at the Northeastern States Forestry Conference held at Springfield, Mass., December 9-11. Director J. C. Kendall, of the State University Extension Service, was asked to address the conference on the possibilities of farm woodlot extension work, and an exhibit of some methods used in New Hampshire was made by Prof. K. W. Woodward and E. D. Fletcher, extension forester.
